INTERNATIONAL FIRE

# Fire Door Registered Installer Course

Manufacturers of fire doors are required by law to demonstrate the ability of their products to resist the passage of fire. However, if they are not properly installed, their fire resistance capabilities can be seriously compromised. **BM TRADA Q-Mark Registered Fire Door Installers provide reassurance to specifiers, contractors and end users that their chosen product has been installed correctly and will perform as intended.**

**This course is the ideal follow-on to Chiltern International Fire's Timber Fire Doors Explained course. Designed especially for fire door installers, it covers:**

- Installation of a fire door – an in-depth guide
- Door plugging and the Q-Mark certification process
- Q&A session
- Written exam

\*Please note, successful completion of this course is a mandatory requirement of the BM TRADA Q-Mark Fire Door Registered Installer Scheme.

Places are only available to provisional members of the scheme who must have firstly completed Chiltern International Fire's Timber Fire Doors Explained course.

For more information or to book your place on the course, please contact Adam Osborn on 01494 569826 or Jim Collins on 07801 649578 or email [enquiries@qmark.info](mailto:enquiries@qmark.info)

BM TRADA Certification is part of the BM TRADA Group of companies:
